

AEM BOOK PAGE CREATION

Creating Book detail template:

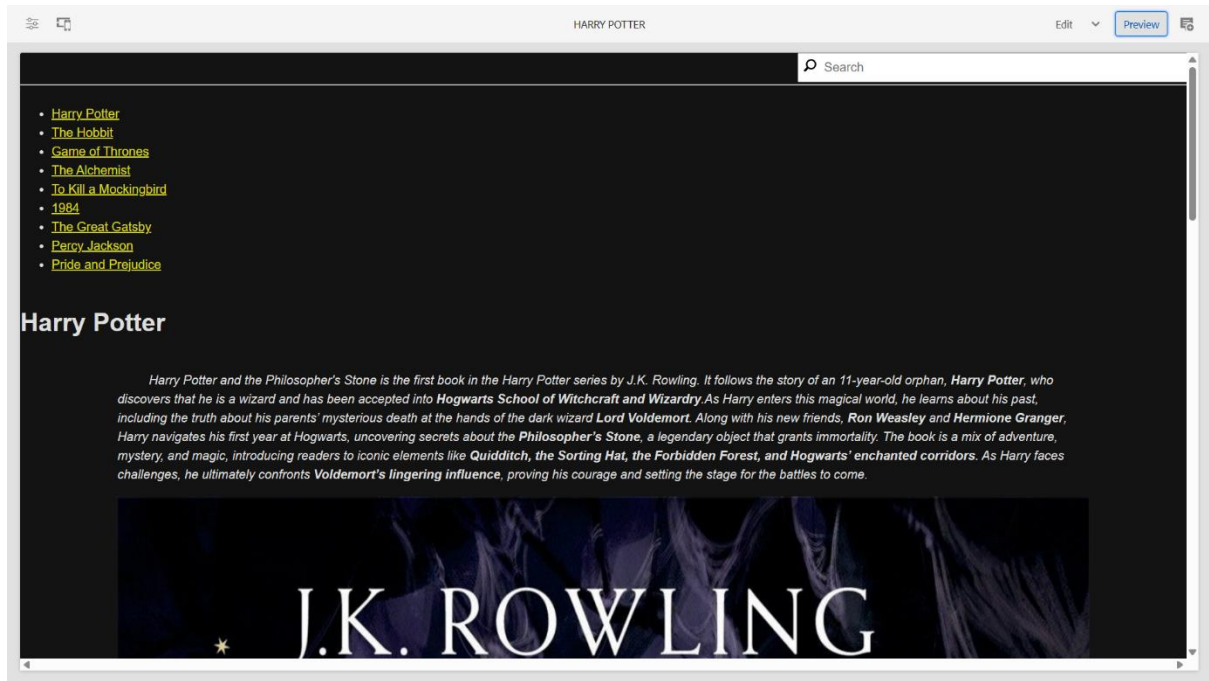

Using book detail template create book pages:

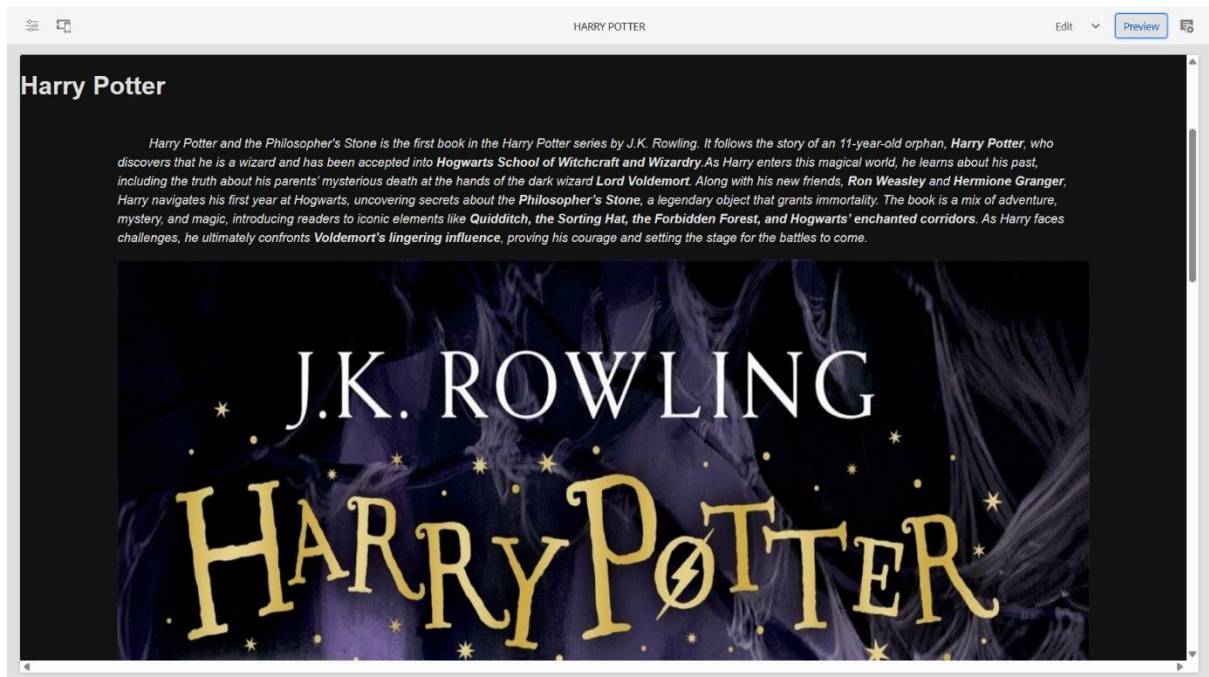

Created book pages :

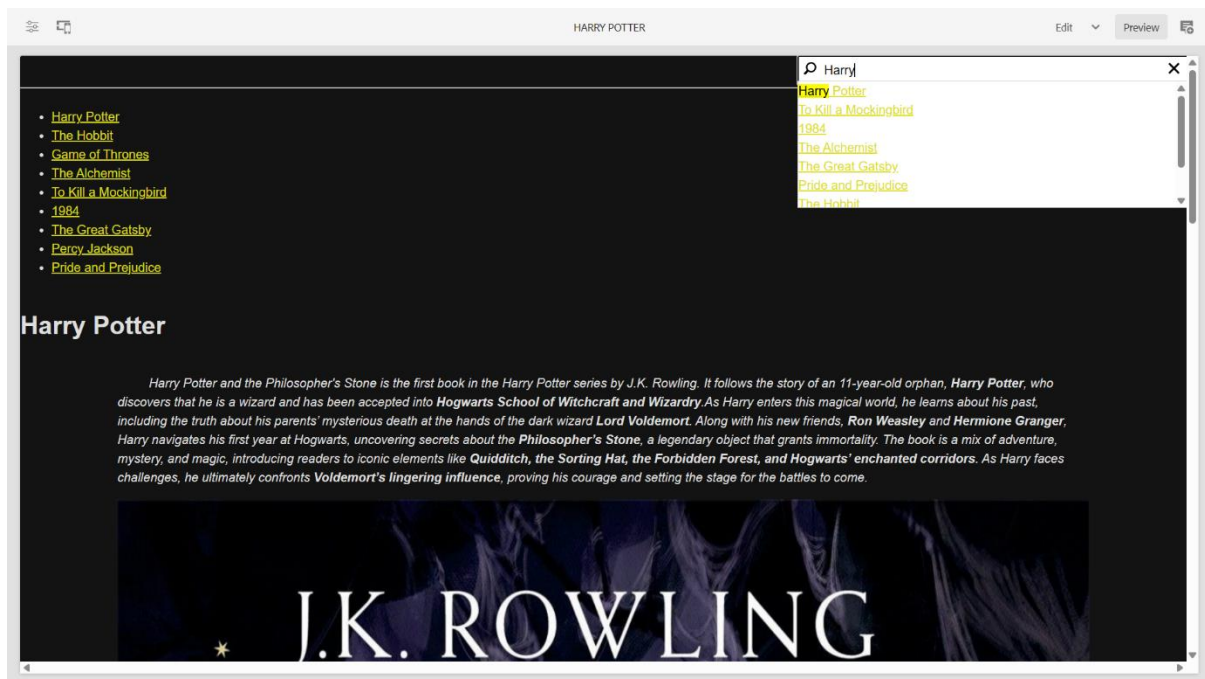

In this page Navigation and search bar is placed,

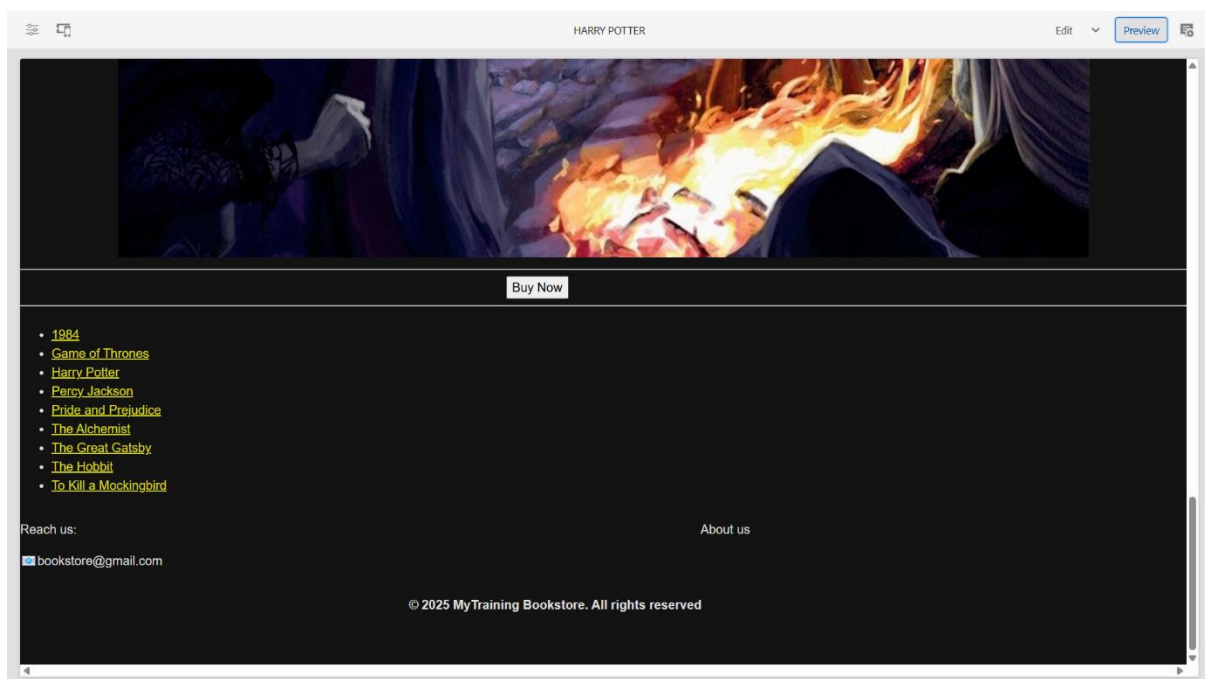

Book Pages with book name, book description, and book cover images

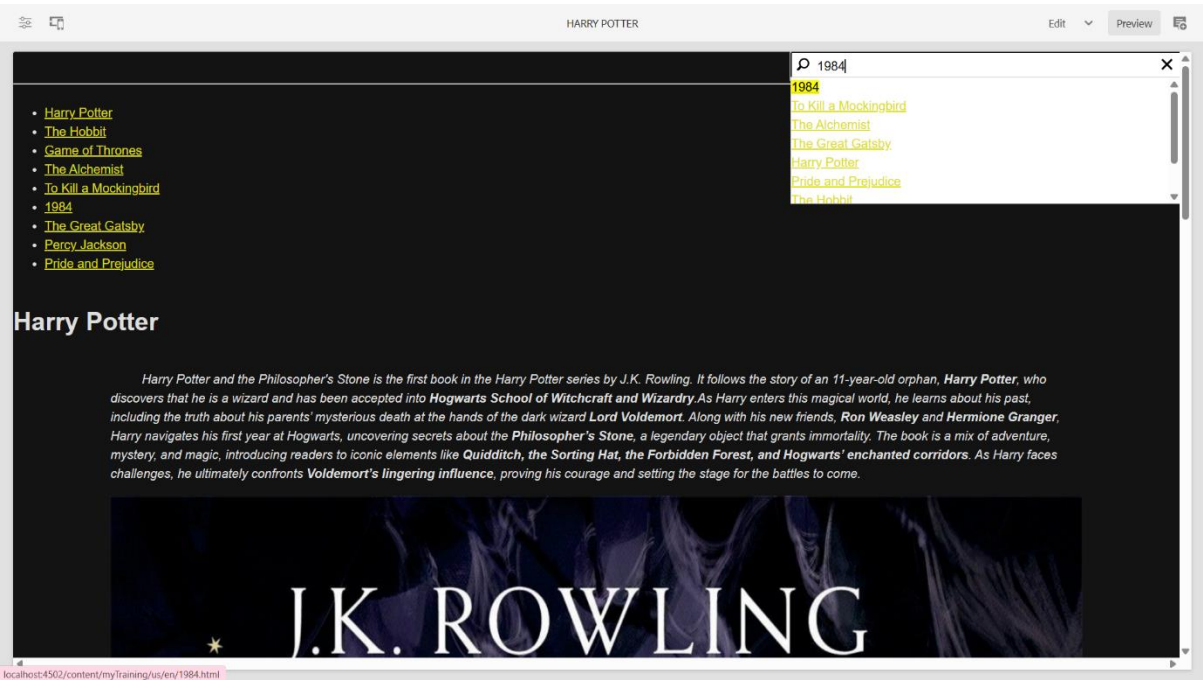

The header of the page contains navigation of book pages in list and quick search bar used for searching books.

The footer of the page includes list of books , reach us, about us and copyright section of the webpage.

This is how quick search bar will works. In that search bar I'm searching about 1984 book it will redirect you to 1984 book page.

1984 book page redirected using search bar:
